

PV Power Plant Miegersbach, Germany

Country
Germany

Year of Mandate
2004

Year of Commissioning
2005

Key Technical Data
Total capacity: 5 MWp
PV technology: poly crystalline
Inverter manufacturer: SMA
Solar Technology
Grid connection: 20 kV
substation

Technical Due Diligence and Technical Inspection for a 5 MWp PV Power Plant

The objectives of the assignment were:

- Identification of technical risks and development of measures for limitation and mitigation of risks
- Review of the status of relevant licences and permits required for the construction and operation of the project
- Review of electric grid requirements and check of the compliance of the power plant
